

## **A.S. Création Press Release**

Gummersbach, August 2019

### **ETHNIC ORIGIN – from Massaï to Navajo**

The graphic patterns of the Massaï, the artistic woven blankets of the North American Diné (Navajos) and classic oriental décors were the inspiration for this extraordinary wallpaper collection.

High-quality digital prints with ethno motifs in powerful colours make these wall coverings so attractive: yellow and ochre tones capturing the shimmering light of the savannah meet deep ocean blue, earthy umbra and sienna.

The colours and décors exude deep comfort and sensual mysticism.
