LINEN STYLE – A touch of luxury

Discreet background or expressive wall decoration? LINEN STYLE offers both, and invites you to play with mixing styles. Understated designs in restrained pastel and natural shades create a stylish and elegant natural ambience. Eye-catching graphic patterns and designs inspired by fauna and flora in lively, yet unobtrusive blues, greys, violets and yellows add a distinctive character to purist interior styles and attract admiring looks.

The rustic linen look with its beautiful structured design and pleasant haptic is authentic, always up-to-date wall décor.
