DESIGN YOUR WALL JUST THE WAY YOU WANT IT – MODULAR AND CREATIVE

Acoustic panels from A.S. Création are not only functional, but also visually appealing. With the Modular Wall series from A.S. Création, you can design your walls exactly the way you want.

The panels are available in various sizes, colours and materials. This allows you to perfectly tailor the wall design to your furnishings and the specific room. The panels can be installed both vertically and horizontally. They are suitable for designing large wall surfaces as well as for selectively accentuating individual areas. This means there are no limits to how you can design your wall.

EASY AND SECURE INSTALLATION

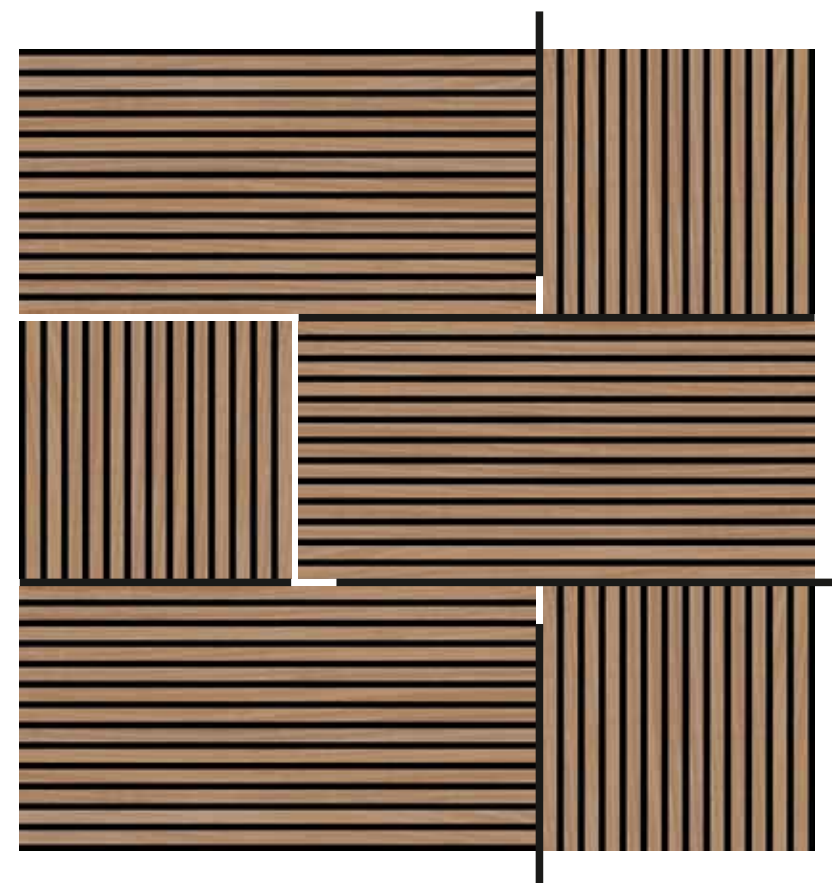

Applies to all panels in this brochure:

1. Apply installation adhesive (recommended) to the back of the panel
2. Align the panel and press it firmly into place
3. Allow the adhesive to dry

THE CONNECTOR WITH THE “WOW” FACTOR

A.S. Création's acoustic panels have a unique feature compared to other products: The specially developed connector allows for installation across the entire height of the wall without visually distracting joints. This enables seamless transitions, resulting in an aesthetically pleasing overall appearance.

The innovation: Thanks to our connector, it is now possible for the first time to combine different panel sizes and freely choose the arrangement of the panels – resulting in endless design possibilities.

“Combining different panel sizes and types is now possible for the first time.”

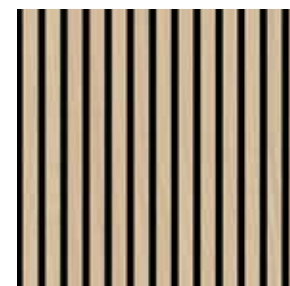

No joints
are visible
due to
our unique
connector

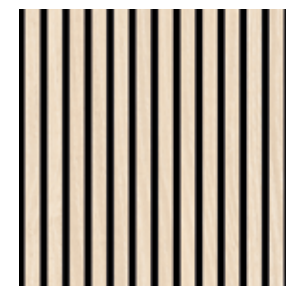

ACOUSTIC PANELS

Whether used individually as a decorative element or by combining the two sizes, it is very easy – even without any prior experience – to create an aesthetic and original design on walls and ceilings. Thanks to their practical size and lightweight construction, these acoustic panels serve as a versatile decorative element and offer countless design possibilities.

rPET ACOUSTIC PANELS

Coloured rPET felt panels on the wall not only provide an aesthetically pleasing design, but also improve room acoustics thanks to their sound-absorbing properties. They create a modern and cozy ambiance. In addition, the vibrant colors create a lively atmosphere and give every room a personal touch.

STONE PANEL

A genuine stone wall brings the beauty of natural materials into the interior and creates a harmonious connection between the outdoor and indoor worlds. The stone's unique texture and variety of colours lend every room a timeless elegance. As a modular addition to the other products, it blends perfectly into modern interior design concepts and adds a luxurious, yet natural accent.

NATURAL BEAUTY

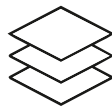

Our plant panels with a life like appearance are the perfect solution for anyone who wants to enhance their home with nature. All panels add a refreshing touch to your interiors and create a relaxing atmosphere – with no need for maintenance.

We use only high-quality artificial plant elements that are faithfully modelled on real plants in both appearance and texture. They're available in a wide variety of colours and designs, so you can find the perfect wall covering to match your style.

They're easy to install and can be mounted on any wall in just a few simple steps. This lets you quickly and easily create a new look for your home.

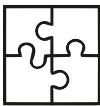

Combining different panels creates a unique and personalised wall design.

The panels create depth and give the room a new dimension.

Our panels require no watering, no sunlight and no fertiliser.

The different types of panels complement each other perfectly and form a harmonious ensemble.

Green plants contribute to a greater sense of well-being.

MOSS

Decorating your home has never been easier than with our real moss panels. The 520 x 520 mm size is particularly practical, eye-catching and looks extremely stylish. With so many possible applications, there are no limits to your creativity. Thanks to its low profile, the panel is ideal for wall decoration. Depending on the size of the surface you're decorating, the job can be done in no time. Afterwards you can enjoy the natural look for years to come – without having to water or fertilise it at all.

NATURE DESIGN FLORA

The Modular Wall Nature Design Flora panel, measuring 520 × 520 mm, impresses with its striking, nature-inspired design. Various life like plant elements combine to create a harmonious overall look. Whether with a thuja or coconut fibre finish, the panels create a lush and vibrant greenery that adds depth and atmosphere.

They bring colour and life to the room and are particularly well-suited for spaces with little light. The panels are designed to look their best even in darker areas.

DESIGN FLORA

Nature is full of beauty and harmony. That's why we developed Design Flora panels. They are like a piece of nature that enchants us right in the midst of our everyday lives. They invite you to sit back and let your mind wander. If you'd like to add a touch of nature and exotic charm to your home or office, our nature-inspired panels are the perfect choice. The Design Flora panels are available in a 520 x 520 mm size, can be mounted on any wall and are very easy to care for.
