

Finished wallcovering paste

1. Material

Type of material: Finished dispersion.

Intended use: Suitable for all standard wallpapers.

Packaging sizes:

Artikel-no.	EAN	Packaging type	weight
076071	40 51315 36888 6	plastic	720 g
076072	40 51315 36890 9	plastic	3 kg

2. Special properties

Finished wallcovering paste, very economical, excellent adhesive strength with good correction possibilities (so-called re-positioning), dries without stains (even on fresh dry plaster), lime and cement resistant and solvent-free.

3. Technical data:

Raw material base: Plastic dispersion and additives

Bulk density: approx. 1,2 g/cm³

pH-value (aqueous solution): 9,5 – 10,5

Drying time: 12-24 hours

4. Application and coverage

The coverage depends on the wall covering to be applied and the absorbency of the substrate. The following guide values apply for an average absorbent substrate:

Wallpaper	Application	Coverage	
		720 g	3 kg
Pre-paste	Depending on the substrate material.		
Paper wallpaper	approx. 200 g/m ²	approx. 3 m ² < 1 Euro-roll*	approx. 15 m ² approx. 3 Euro-rolls*
Satin, non-woven and textured wallpapers	approx. 300 g/m ²	approx. 2,5 m ² < 1 Euro-roll*	approx. 10 m ² approx. 2 Euro-rolls*
Glass fabric	approx. 400 g/m ²	approx. 1,5 m ² < 1 Euro-roll*	approx. 7 m ² approx. 1,5 Euro-rolls*

* Dimensions of a Euro roll: approx. 10,05 m x 0,53 m, i.e. approx. 5 m².

5. processing instructions

Substrate pre-treatment: Remove all old wallpaper. The surface to be wallpapered must be dry, clean, firm, stable, even and slightly absorbent. Fill cracks and holes with filler. Paint a neutral-coloured substrate, otherwise apply a white pigmented primer. Pre-paste highly absorbent substrate materials according to the table.

Application: Thoroughly mix before use. Do not apply below + 5 °C substrate and room temperature. Opened ready-mix paste can be used for up to 7 days in a tightly closed pot.

Wallpapering: Paste wallpaper or walls evenly in accordance with the application instructions, allow to soften if necessary and then wallpaper.

Paste residue: Remove any paste residue on the front of the wallpaper immediately with a damp cloth.

Tool cleaning: Clean with cold water immediately after use.

6. other information

Protection and safety instructions: Do not inhale paste dust. If the dry or wet paste comes into contact with the eyes, rinse them with clean water. For further information, please refer to the safety data sheet: www.as-creation.com

Storage: Store in a cool, dry place. Keep out of reach of children.

Disposal: Only dispose of empty containers for recycling (waste paper or plastic). Dried material residues can be disposed of with household waste or as construction site waste. EWC waste code no. EWC 08 04 10.
