

A.S. Création Press Release

Gummersbach, March 2020

ATELIER 47 – A statement for wall culture

Wall-to-wall compositions make the wallpapers in the new “Atelier 47” digital print collection flamboyantly eye-catching: with multilayered imagery inspired by urban and natural themes, combined with graphics, geometrics and striking textures, A.S. Création shows once again that dressing walls is a distinctive art form.

The extraordinary collection from the Gummersbach-based wallpaper manufacturer is an impressive testimony to the imagination and skills of the international designer. Free from the limitations of format and pattern repeat, the large-scale wall art exudes 21st-century spirit, perfectly enhancing home interiors, shops, hotels, cafés and restaurants, as well as exhibition stands and public buildings.
