Gummersbach, October 2018

### **DI SETA – A touch of luxury**

Classic designs interpreted in a modern way: The unique silky finish and subtle lustre of the luxurious DI SETA collection leave a lasting impression and let every room shine. The effect is created by using traditional methods to carefully and precisely mount woven fabric wallpaper onto a non-woven base.

Finely defined classical and graphical motifs in understated modern shades – ranging from elegant cream and taupe to lime green and mustard yellow – complete the sophisticated design.

The elegance of these exquisite wallcoverings will create a harmonious and stylish ambience in any loft or penthouse apartment.
