Daniel Hechter 6 – Exclusive interior design

The style of the French fashion brand represents sporty elegance and is reflected in the now 6th wallpaper collection with the fashion label Daniel Hechter.

In collaboration with the Gummersbach wallpaper manufacturer A.S. Création, Daniel Hechter has once again created a thrilling collection distinguished by its floral and graphics designs with naturally seeming structures.

The collection shows warm and cosy current colour trends that range from beige/cream through light and dark blue, green, brown, grey to black.

Another highlight is the 2 digital prints in a graphic design with strong colours.
