

## **A.S. Création Press Release**

Gummersbach, November 2021

### **Desert Lodge – connect with nature**

The wallpapers in the Desert Lodge collection by A.S. Création create an atmosphere that perfectly suits the current mood and needs, always in harmony with nature.

The motifs take us to a lodge in Africa, to a Bedouin tent, to a mud hut or to the green foliage of the jungle. You can hear the nocturnal sounds of the jungle and positively feel the shifting desert sand around you.

The matching plains of rattan and raffia on the patterns are also reminiscent of faraway places such as Africa, South America and Asia. A world of origin and refuge.
