

A.S. Création Press Release

Gummersbach, August 2020

History of Art – Art history on the wall

The “History of Art” wallpaper collection by A.S. Création presents the most diverse motifs in a natural style - inspired by flora and fauna.

Each and every one of the premium designs tells its own story and with its visuals from the textile and plaster structure creates a natural ambience in stylish elegance, thus ensuring a modern wall design.

The rich colour pallet of the plain-coloured wallpaper contains, above all, fragmented shades of colour with pastel character.

The digital prints likewise contained in the collection are premium, easy-to process non-woven backing material and have a user-friendly strip width of 1m.

The colours used are allergy-free and odourless.

Collection: History of Art
