Only Borders 11 – For creative wall design

The new collection ONLY BORDERS 11 by A.S. Création shows the whole variety of décor in a wide range of colours and encourages imaginative design of the wall.

Borders are back in vogue.

They are used individually and playfully in modern wall design and make any wallpaper surface even more attractive - whether as a wall finish or for framing.

A special highlight is a selection of self-adhesive stick-ups, which makes hanging even easier.
