

A.S. Création Press Release

Gummersbach, September 2021

DreamFlowery – Destined for dreaming!

The wallpapers in the DreamFlowery collection from A.S. Création awaken dreams of the Caribbean, romantic flower gardens in Europe or the "fabulous" animal world and flora & fauna of Africa.

The world of the maharajas in the most diverse forms and pictorial motifs of humans and animals, as well as the enchanted jungles of South America.

A fantastically playful world tour for the walls of your own home with large pattern repeats.

The range of motif wallpapers is rounded off with a 30-colour plain series in which everyone can find their ideal home colour tone.
