Gummersbach, October 2021

#HYGGE – Wallpapers to feel good

The #Hygge collection by A.S. Création offers designs and finishes that highlight the hygge lifestyle.

Hygge has long been more than just a trend and has more than established itself as a style of living in its own right.

Patterned wallpapers with pampas grass flowers, reed grasses to filigree flower grasses with subtle gloss effects support the naturalness of the colour palette.

Coarser wool, bast and fabric structures give the wallpapers a cosy feel. The collection is complemented by fine plain wallpapers.

The colour scheme ranges from cream tones to grey, beige and green, to brown, red and warm ochre.
